## Table of Contents: Fourth International Congress of CiiEM: Health, Well-Being and Ageing in the 21st Century

<b>Editorial</b>	vii
<b>II Key-notes</b>	
Aging the death: the importance of having better methods for age at death estimation of old individuals	S1
DNA Use in Forensic Human Identification	S2
Interactive Technologies in Stroke Recovery: Uncovering Challenges and Opportunities through Physiotherapist's Perspective	S3
Might synthetic cannabinoids influence neural differentiation?	S4
Modulation of the initial stages of systemic inflammation by intervention in the NFkB signalling pathway	S5
Molecular Biomarkers Associated with Respiratory Insufficiency in Amyotrophic Lateral Sclerosis	S6
Nursing communication handover in emergency department	S7
Pathologic expansion in the C9orf72 gene is associated with accelerated decline of respiratory function and decreased survival in amyotrophic lateral sclerosis	S8
Risk indicators in families with abused children and young people: scoping review	S9
Role of fibrinogen-erythrocyte and erythrocyte-erythrocyte adhesion on cardiovascular pathologies	S12
Satisfaction with nursing care: influence of sociodemographic factors on a sample of hospitalised children	S13
Sexual Well-Being in Old Age: Are Older Adults Well Sexually?	S14
The oral – systemic link: oral infection/inflammation and the relation to general health	S15
<b>III Free Communications</b>	
<b>Biochemistry and Biology</b>	
<b>Biochemistry</b>	
Effect of saccharomycin, a natural <i>Saccharomyces cerevisiae</i> biocide, on <i>Hanseniaspora guilliermondii</i> cells surface	S16
Interaction between gold nanoparticles and blood proteins	S18
Survey of biogenic amines (histamine and spermidine) in commercial seafood by Enzyme Linked Immunosorbent Assay (ELISA)	S19
<b>Biology</b>	
Interleukin gene cloning and expression in <i>E. coli</i>	S20
The genetic susceptibility linking preterm birth and periodontal disease – A review	S21
<b>Biomedical Sciences</b>	
A review on Tumour Treating Fields, a novel modality in cancer treatment	S23
Automedication in utentes of municipality of Almada	S24
Chemically crosslinked PVA hydrogels for cartilage substitution	S25

Discrimination by X-ray fluorescence analysis of elemental concentrations in healthy and diseased rat tissues	S26
Hydrogels based on poly(vinyl alcohol) for cartilage substitution	S27
Influence of the liquid phase content and presence of hydroxypropyl methyl cellulose on the properties of a calcium phosphate bone cement	S28
Layer-by-Layer coated silicone-based soft contact lens hydrogel for diclofenac sustained release	S30
Nanoencapsulation as a novel delivery approach for therapeutic applications of gla-rich protein (GRP)	S31
Neuromodulation of Lower Limb Motor Pathways with Trans-spinal Direct Current Stimulation: an overview of current findings	S32
Physically crosslinked polyvinyl alcohol hydrogels as synthetic cartilage materials	S33
Profiles of elemental concentrations in human: contribution of X-ray fluorescence to discrimination between healthy and diseased tissues and prediction of alterations in tongue carcinoma	S34
PVA/chitosan hydrogels loaded with octenidine and 2-phenoxyethanol for wound dressings	S35

## Chemistry

Direct Esterification of Sucrose: Novel Lead-Compounds Against Cancer	S37
Gold(III) bisdithiolate complexes: molecular conductors that also exhibit anticancer and antimicrobial activities	S39
Inhibition-based biosensor for cyanide detection – a preliminary study	S41
Modification of ZnO nanoparticles with silanes enables their application as anticancer agents	S43

## Dental Medicine and Dental Prosthesis

### Dental Medicine

Antibiotic prophylaxis for dental procedures: Do dental students know enough?	S44
Assessment of the relationship between oral health-related quality of life (OHRQoL) and dental malocclusion in a Portuguese sample	S45
Bacteriophage isolation from human saliva: a pilot study with high school students	S46
Bitemarks analysis of orthodontically treated suspects - an identification approach	S47
Determination of the Vertical Dimension Occlusion - Case Report	S48
Differential Diagnosis of Developmental Defects of Enamel: a review	S49
Effect of an antioxidant on the microtensile bond strength ( $\mu$ TBS) of restored teeth after dental bleaching	S51
Effect of pH of H <sub>2</sub> O <sub>2</sub> solutions on the morphology and wear resistance of human dental enamel: an AFM study	S52
Effect of the saliva biomolecules on the interface zirconia/Ti6Al4V triboactivity	S53
Evaluation of an experimental setup to analyse the intermaxillary relation in surfers	S55
Evaluation of periodontally diseased molars based on the Miller McEntire Periodontal Prognostic Index	S56
Evaluation of Postoperative Pain in Patients Submitted to Periodontal Surgeries	S57
Evaluation of Self-perception of Awake Bruxism in Dentistry Students – Clinical Case Series	S58
Evaluation of the quality of life before and after rehabilitation with dental implants: a pilot study	S59
Evaluation of the relationship between oral health-related quality of life (OHRQoL) and skeletal malocclusion - a pilot study	S60
How often are medication prescribed in the emergency appointment at Egas Moniz Dental University Clinic? – A pilot Study	S61
<i>In vitro</i> erosive dental wear measured with a 3 D intraoral scanner - a pilot study	S62
Inflammatory Dentigerous Cyst – A Clinical Case	S64
Influence of acid etching on internal bleaching with 16% carbamide peroxide	S65
Influence of different antioxidant agents on the microtensile bond strength of restored teeth after bleaching	S66
Influence of Silane Type and Application Time on the Bond Strength to Leucite Reinforced Ceramics	S67

Low-Level Laser Therapy in neurosensory recovery - Case series approach in dental and maxillofacial rehabilitation	S68
Marginal Microleakage of Flowable Resin Composites Used to Adhere Semi-Direct Restorations	S69
Multidisciplinary Team in Temporomandibular Disorders	S70
My Tooth is Ill: About the Mental Representation of the concept of caries in children (Phase I)	S71
Oral Health goes to school	S72
Patologia Degenerativa da ATM: Do conservador ao minimamente invasivo - caso clínico	S74
Prevalence of imperfect amelogenesis cases in a paediatric population of the paediatric dentistry clinic of IUEM	S75
Restorative Materials Without Bis-Gma – Myth or Reality?	S76
Sleep Bruxism: the complexity of a definitive diagnosis – Case Report	S77
Teeth discolouration and prescribed slimming magistral formula: a case report	S78
The child's self-perception about Dental Decay in the change of Deciduous Teeth	S79
The Egas Moniz Histology Digital Platform – a dream that came true	S80
The prevalence of patients with rheumatic diseases and its periodontal condition: data from a population-based study in the Lisbon Metropolitan Area	S81
Translucency evaluation of an ultra-translucent monolithic zirconia and a super translucent multilayer zirconia: a pilot study on the thickness effect	S82
Translucency of HT lithium disilicate specimens with different thicknesses - Preliminary study	S83
Treatment of infra-bony periodontal defects using a collagen membrane and a bone substitute of equine origin – a pilot study	S84
Vascular Risks in External Sinus Lifts: an Anatomical Approach	S85
Vital pulp therapy in a 9-years-old patient: a clinical case	S86
What Is the Best Etching Timing in a Resin Infiltrant used on Enamel Surface After Remineralization With CPP-ACP?	S87
Temporomandibular disorders in scuba divers: A Systematic Review	S88

## Dental Prosthesis

3D-Printing of zirconia dental prosthesis	S89
Association between mouth-breathing and atypical swallowing in young orthodontic patients at Egas Moniz Dental Clinic	S91

## Environmental Sciences

Study of Quantum Dots (CdS, ZnS) toxicity in Danio rerio: preliminary results	S92
Study of the effects of nanoplastics ingestion in a freshwater fish (Danio rerio)	S93

## Forensic Sciences

2-Phenoxyethanol derivatization in Ink dating determination	S95
Assessing the Content of a Package of SGT-151 Sold Online	S97
Genetic predisposition for aggressive behaviour related with dopamine and serotonin pathways – An overview	S99
Improving methodology to determine Vitamin D3 in food supplements	S100
Information System for Tablets Identification (ISTI)	S102
Saccharomyces cerevisiae as a model to study synthetic cannabinoids: the impact of using different carbon sources	S103
Toxicity of Synthetic Cannabinoids is Increasing Along with the Regulatory Measures Taken for their Control	S105
Vehicle identification from automotive paints transferred in road accidents	S107

## Health Sciences

Effects of respiratory disease and age in quadriceps muscle mass: a pilot study with ultrasonography	S108
Proximity-aware Interactive Displays for Rehabilitation Centres	S110
Reliability and validity of the QASCI questionnaire to assess caregiving burden in COPD	S111

## Medicine

Anatomical Factors in Medication-Related Osteonecrosis of the Jaws	S113
Clinical Outcomes in TMD patients after Arthrocentesis with Lysis, Lavage and Viscosupplementation	S114
Collateral circulation in the obstruction of the Superior Vena Cava flow	S115
Identification of Potentially Inappropriate Medications with risk of Major Adverse Cardio- and Cerebrovascular Events among elderly patients	S116
Infrasound exposure promotes development of atrial fibrosis in rats	S117
The Reticular Hypodermic Venous System, the true integrator of the Superficial Venous System	S118

## Microbiology

Comparison of in-office and at-home tooth-whitening products cytotoxicity	S119
Effect of Vif in doxorubicin treated breast cancer cells	S120
Evaluation of antifungal susceptibility in clinical isolates of the <i>Candida glabrata</i> complex	S122
HIV Vif protein in docetaxel treatment of breast cancer cells	S123
Microbiological evaluation in oral health units: detection of antibiotic resistant bacteria	S124

## Nursing

A Teaching Tool for Nursing Procedure with Oxygen therapy	S125
Can prior hospitalisation experiences influence satisfaction with nursing care? Results in a school-aged children sample	S126
Motivation factors of nurses in a group of primary health centres in the city of Lisbon: Qualitative Study	S127
Nursing Interventions to the Person with Cardiac Disease submitted to ECMO – Integrative Literature Review	S128
Quality of Life in Paediatric Oncological Disease: Integrative Literature Review	S129
Literature Review on shift work and nurses burnout	S130
Strategies used by nurses and tracheostomized users in communication: Systematic Review	S131
Work environment and quality of nursing care in primary health care: a scoping review	S132

## Nutrition

“Massa de Malagueta”: tradition with a twist	S133
Anthropometric and body composition characterisation of competition Portuguese Crossfit athletes	S134
Can urban gardens improve food security, health, well-being and financial sustainability of households?	S135
Effect of different cooking methods on the content of total vitamin C, ascorbic acid and dehydroascorbic acid of the galega kale	S136
Food intake assessment and anthropometric characterisation of teenage gymnasts	S137
Influence of temperature and light on total phenolic compounds during natural orange juice storage	S137
Milk related excipients in medications: concerns with cow’s milk protein allergy	S139
Sexual and reproductive health: The science behind supplementation in aging	S140

## Pharmacy

Assessment of the stability of co-amorphous olanzapine in tablets	S141
---	------

Characterisation and stability of co-amorphous systems containing olanzapine and sulphonic acids	S143
Co-formability, solubility enhancement and stability of olanzapine co-amorphous systems produced with different co-formers	S144
Comparison of the amorphization ability of two polymorphic forms of olanzapine	S146
Cytotoxicity of temperature-responsive cationic diblock copolymers in human cancer and non-cancer cells lines	S148
Dosing oral-liquid azithromycin suspensions: do users follow instructions?	S150
Evaluation of antibiotic prophylaxis use in a University Dental clinic in the Lisbon Area	S151
<i>In vivo</i> study on the performance of therapeutic intraocular lens loaded with an antibiotic and an anti-inflammatory	S152
Magistral slimming: what are the risks?	S153
Polyhexanide and chlorhexidine loaded chitosan wound dressings	S155
Resistance Associated Mutations to Protease Inhibitors on HIV-2 infected patients in Portugal	S156
Vitamin D in Liquid Food Supplements: are labels in line with RDA?	S157

## Psychology: Clinical and Forensic

### Clinical Psychology

Are the self-esteem and the adult attachment affected by previous experiences of youth victimisation?	S158
Do difficulties in emotion regulation impact self-esteem and adult attachment?- The role of trauma	S159
Polyvictimization among a juvenile Portuguese sample	S161
Predictors of peer victimisation in the context of secondary school	S162
The impact of childhood abuse on adult self-esteem and emotional regulation	S164

### Forensic Psychology

Elder Abuse: The Hidden Face of Domestic Violence	S165
Inmates' empathy: Relationship with childhood victimisation	S166
Interpersonal Reactivity: The Impact of Infant-Juvenile Positive Experiences	S167
Intimate partner homicide: victims and the dynamics of victim - perpetrator relationship	S168
Preliminary Validation of Bumby Rape and Molest Scales: Exploratory Factorial Analysis	S169
The reflex of the past – The role of youth victimisation trauma on the interpersonal reactivity	S170
Traumatic experiences in a lifetime: Impact on the connection with others and the role of emotions	S171
Violence Risk Assessment in Forensic Psychology Office: From Childhood to Elderly	S172
Vulnerable Victims in Court: From Childhood to Senescence	S173

### Physiotherapy

Adolescent neck pain: association with the use of mobile telephone	S174
Ageing and ethical challenges in physiotherapy: Application of the RIPS model in ethical decision-making	S175
Analysis of factors related to shoulder instability in young handball players	S177
Ankle stiffness assessment in individuals with Chronic Ankle Instability in dual-task single leg stance, on an unstable surface	S178
Benefits of a Virtual Environment Program at the level of Functional Physical Fitness in Non-Institutionalized Elderly	S179
Benefits of Condylar Distraction in Patients with Temporomandibular Dysfunction	S180
Central Synthesis of Temporomandibular Dysfunction	S181
Effect of a single dry needling session in Temporomandibular Disorders	S182
Effect of auditory neurosensory stimulation in gait pattern after acute stroke	S183
Elderly: Health services and human resources requirements in Portugal	S184
Estimating Anatomically Plausible Segment Orientations using a Kinect One Sensor	S185
Functional capacity and health status in patient chronic obstructive pulmonary disease	S187
Infant massage programs for newborn babies: Systematic Review	S188

Modulation of ankle antagonist co-activation during the transition from upright standing to gait and to sit in post-stroke subjects	S189
On the Potential of Virtual Reality for Locomotion Rehabilitation	S191
Predictors of physical fitness and Health-Related Quality of Life based on anthropometrics characteristics and exercise stress test performance in cardiac rehabilitation	S192
Professional Competences of the Physiotherapists in the field of Mental Health in Portugal: a questionnaire based survey	S193
Psychosocial aspects in Temporomandibular Disorder: a case report	S194
Relationship between handedness and the incidence of spinal changes in the frontal plane: evaluation using Idiag® Spinal Mouse®	S195
Relationships between respiratory parameters and quadriceps strength in subjects with chronic obstructive pulmonary disease	S196
The Skin temperature under multilayer bandages during exercise	S197
Sports Injuries Patterns in Children and Adolescents According to Their Level of Sports Participation, Age and Maturation	S199
Sports Practice and Foot Pressure in Children and Teenagers from 10 to 18 Years Old: Evaluation performed using Namrol® Podoprint®	S200
Strategies to manage anterior disc displacement without reduction of temporomandibular joint: a case report	S201
The effect of progressive aerobic, resistance and stretching exercise combined with education on body weight among breast cancer survivors	S202
Translation of Professionalism in Physical Therapy questionnaire for Portuguese of Portugal: Core values	S203

## Public Health

Accessing the potential impact of education about cancer screening programs: a pilot before and after study	S204
Management of clinical relevant drug-drug interactions with antipsychotics in nursing homes	S205
Oral Anticoagulation on patients with atrial fibrillation: are we doing a good job?	S206

## Sociology and Social Sciences

Medications in workplace – a literature review	S207
--	------
